

Hi All

I have been using TOWERFORCE on various projects across QLD, I found Ricky to be very understanding when it came to my specific needs for the works required. He has always delivered and provided quality Staff as well tending to my short-term needs and the usual emergency staff requirements to keep projects on schedule.

It has now become a one stop shop for me as TOWERFORCE has a vast range of skilled workers across the Telecommunications industry who can fill my short- or long-term requirements.
